

Collector's rights

When you collect an Energy Token, you have the right to do the following:

1. **Download the work.** As a participant, you'll have access to a permanent link where you can download the original, full-resolution file.
2. **Display of the work.** You have the right to display the work privately.
3. **Be assured of the work's authenticity.** Memory Gems guarantees the provenance of every Energy Token using the publicly accessible Polygon Blockchain.
4. **Loan or lease the work.** You may not grant others the temporary right to display the work.
5. **Resell or transfer of the work.** You are entitled to transfer your rights to the work to another collector. However, resales are strongly discouraged. In case of a resale or otherwise receiving compensation for the transfer of the work, the artists will be paid the maximum percentage allowed by the resale platform of the amount you receive.
6. **Respect the artist's rights.**
7. You'll retain the above-mentioned rights in perpetuity until you transfer ownership of the work.
